For the body of the hat cut a strip of card about 4cms deep, and long enough to fit around the head of the snowman, fasten it with masking tape.

Place the tube on another piece of card.

3

Holding the tube steady, lightly **draw a pencil line around the base** as shown, call this **circle a**.

4

Lift the tube off and **draw a second circle** about 1cm outside the first line - call this **circle b**.

5

Fig1. Draw several **straight lines** from **circle a**, to **circle b** as shown, then **cut around the outer edge**. Fig2. **Cut on lines** as far as **circle a**.

Fig1. Place cut out circle on top of hat.  
Fig2. Bend tabs down as shown.  
Fig3. When tabs are flat to sides  
Fig4. Fasten down with masking tape.

**7**  
**To make the BRIM of the hat, hold the tube steady, on a piece of card, and lightly draw a circle around the base as shown - call this circle a.**

**8**  
Lift tube off and **draw a second circle 1cm outside circle a, call it circle b.** Next draw a **third circle about 1cm inside circle a, call it circle c.**

**9**  
Fig1. Draw some **lines** from the **middle circle a - to inner circle c .** Next cut round at **outer edge.**  
Fig2. Cut out **middle circle c.**

**10**  
Fig1. Cut on the little lines from the **centre hole as far as line a.**  
Fig2. Bend the separate tabs upwards.

**11**  
Glue the outside of the tabs then put the hat over the tabs and press the tabs down, around the inside of the hat.

**12**  
Now the rim is attached and the hat is almost finished.

**13**  
To make a neat and strong finish, paste enough strips of white tissue or fine paper to cover the outside of the hat. When the glue is dry, paint the hat.

**14**  
Once dry the hat can be scrunched up a bit, before fitting it on the snowman.
